

FEMI OJEYEMI

Software Engineer | iOS & Full-Stack Development

Milton, Ontario

+1 (437) 350-2392 | olufemiojeyemi@gmail.com | [linkedin.com/in/femiojeyemi](https://www.linkedin.com/in/femiojeyemi) | github.com/femosky | femiojeyemi.com

PROFESSIONAL SUMMARY

Software engineer with experience shipping native iOS and full-stack products from concept to production. Independently built and published two iOS apps, including a monetized SwiftUI language-learning platform backed by Supabase and PostgreSQL. Skilled in Swift, SwiftUI, React, TypeScript, Node.js, REST APIs, and cloud deployment.

SKILLS

Languages: Swift, TypeScript, JavaScript, SQL, Python, HTML, CSS

Mobile: SwiftUI, UIKit, Xcode, StoreKit, UserNotifications, Firebase, App Store Connect, TestFlight

Web & Backend: React, Next.js, Node.js, Express.js, REST APIs, Supabase, PostgreSQL, Prisma

Tools & Cloud: Git, GitHub, AWS EC2/RDS, Vercel, Google Maps API, AdMob

TECHNICAL EXPERIENCE

Independent Software Developer | Product Development | Milton, Ontario **2024 – Present**

Cardernir — iOS Language-Learning App | *SwiftUI, Supabase, PostgreSQL, StoreKit* **June 2026**

- Designed, developed, and launched a native iOS app with 3,850 French-English cards across five downloadable packs, linear practice, spaced repetition, offline caching, progress tracking, reminders, and English/French localization.
- Built a Supabase/PostgreSQL content backend and integrated StoreKit subscriptions and pack purchases, analytics, AdMob consent, and App Store release workflows; acquired 3 active paid subscribers from the first 32 downloads.

Roki — Social Discovery App | *SwiftUI, UIKit, Firebase* **January 2025**

- Built and published a Firebase-backed iOS app with profiles, photo uploads, interest/country/proximity discovery, blocking, and real-time visibility updates; reached 228 first-time App Store downloads.

Defence Space Administration **February 2023 – December 2023**

IT Engineer / Frontend Developer *Abuja, Nigeria*

- Developed responsive React interfaces for an internal messaging and document-sharing platform and integrated frontend components with backend APIs.
- Diagnosed and resolved UI defects across messaging, file exchange, loading, and error states to improve interface reliability.

PROJECTS

Project Forum – Next.js, Node.js, PostgreSQL **Ongoing**

<https://github.com/Femosky/project-forum>

- Developing a full-stack social platform using Next.js to improve performance and SEO.
- Developed REST APIs with Node.js and Express for handling posts, comments, and user interactions.
- Designed relational database schemas using PostgreSQL and Prisma ORM.

EDUCATION

Master of Science in Computer Science **August 2026 – Present**

Georgia Institute of Technology *Atlanta, Georgia*

Mobile Solutions Development (Diploma) **April 2025**

Conestoga College *Waterloo, Ontario*

Bachelor of Engineering in Computer Engineering **September 2021**

Covenant University *Ogun, Nigeria*
